Holly Specialist

ROUTE 25

ROBBINSVILLE, N. J.

FERTILIZER and PLANTFOOD LIST

Oak Leafmold (Prices FOB the Nursery unless otherwise marked)

\$1.00 per bag of approx. a bushel. Freight usually exceeds cost of mold.

\$2.00 per drum of approx. 1/5 bushel. POST-PAID. More of a bargain than it looks in that freight is so high on Leafmold.

\$27.00 per thirty bags. We truck thirty bag lots fairly reasonably.

\$30.00 per loose ton. We truck small loads fairly reasonably.

Tobacco stems, cut. (Potash Mulch)

\$1.00 per bag of approx. bushel and a half.

\$5.00 per bale, compressed, contains approx. 10 bushels when fluffed.

Organic base concentrated fertilizer.

\$1.25 per ten pound bag.

\$2.50 per twenty-five pound bag.

MAINTENANCE CHARGES:

Experienced pruning and feeding services for Hollies.

MINIMUM CHARGE—\$10.00

PRUNING:

\$2.50 per hour total charge, including equipment, man and transport, portal to portal and if over eight hours, time and a half.

FERTILIZING:

(Organic mulches and concentrates only)

\$2.50 per hour per man (usually only one man required) portal to portal and if over eight hours, time and a half.

\$.10 per mile trucking charge for hauling the fertilizer, round trip.

\$——? cost of fertilizer in addition, as required. Prices above.

NOTE: Some of the listed sizes in this catalog are sold out. Please write us before making a special trip.

The AMERICAN HOLLY Group

Ilex Opaca (Our specialty: see catalog for varieties; sex guaranteed)

3—6"	Pots	\$1.00 each—Whips
6—12"	Pots	\$2.00 each—Branched whips
12—18"	Basket	\$5.00 each—Bushy strains
18—24"	Basket	\$7.50 each—Bushy strains
2—3'	Basket	\$7.50 each—Upright open strains
2—3'	Basket	\$10.00 each—Bushy strains
2—3'	Basket	\$15.00 each—Very bushy strains
3—4'	Basket	\$10.00 each—Upright open strains
3—4'	Basket	\$15.00 each—Bushy strains
3—4'	Basket	\$25.00 each—Wide, very bushy
4—5'	Basket	\$25.00 each—Upright open strains
4—5'	Basket	\$30.00 each—Upright well branched
4—5'	Basket	\$40.00 each—Broad bushy specimen

(Items below are B&B XXXXX laced rope balls)
(300-500 lbs. approx.)

4—5'	Specimen, well formed and bushy	\$50.00 each
5—6'	Specimen, bushy type	\$75.00 each
5—6'	Specimens, open tree type branches off ground, single trunk ..	\$50.00 each
6—7'	Specimens, open tree type branches off ground, one trunk	\$50.00 each
6—7'	Specimens, open tree type branched off ground, one trunk	\$75.00 each
6—7'	Specimens, bushy types	\$100.00 each
7—8'	Tree type, branched off ground....	\$90.00 each

(Items below are balled and platformed)
(Up to 4 tons each)

8—10'	Exceptionally broad and bushy	
	Female	\$150.00
	Male	\$100.00
10—12'	Exceptional broad and bushy	
	Female	\$250.00
	Male	\$150.00
12—16'	Exceptionally broad and bushy	
	Female	\$300.00
	Male	\$200.00

Above trees are 25-50 years old, and have been transplanted many, many times. Oak Leafmold and plantfood for planting are furnished included in the price. (Up to 1/2 ton per tree.) We have been moving this stock for more than thirty years and our record for livability is nearly perfect. See inside front cover for planting and delivery charges.

The JAPANESE HOLLY Group

(Boxwood-like foliage: Grows easily and is easily sheared. Black berries. Stays good dark green in the winter. Feed with leafmold and water well during growing season. Very popular in place of all the more common evergreens that do not winter with good green.)

Varieties:

Ilex Crenata—Upright Japanese Holly. The most common type.

Ilex Crenata Convexa—Bushy broad cup leaf Japanese Holly. Hardy, dark green.

Ilex Crenata Microphylla—Little leaf Japanese Holly. Bushy habit.

Ilex Crenata Rotundifolia, male—Larger roundish leaf, intermediate habit of growth. Neither upright narrow nor wide bushy.

**Ilex Crenata (Convexa) Hetzii—New introduction, looks like a large-leaved I.C. Convexa, dark, shiny foliage, somewhat bushier. An attractive addition to any garden. Rovex Hybrid.

*Ilex Crenata Helleri—Pincushion or mushroom Japanese Holly, dwarf habit of growth, (about 2" growth a year) Prostrate rounded.

> **Ilex Crenata, Rovex Hybrid #32—Semi-dwarf. Wider than tall. A new variety of interest. Dark foliage.

3—6" Pots or peat ball, whips, 3 for \$1.00
\$30.00 per hundred.

6—12" Peat ball, whips branched, \$.75 each
\$67.50 per hundred.

12—18" Peat ball, branched bushy—\$2.50 each
\$22.50 per ten.

15—18"—12" Basket, bushy specimens—\$5.00 each
\$45.00 per ten.

18—24"—12" Basket, bushy specimens—\$7.50 each
\$67.50 per ten.

*Double above price due to slowness of growth. Very compact.

**50% more than list above for new introductions.

The EUROPEAN HOLLY Group

(Often known as English Holly, covers much of the continent in variation. Likes damp, foggy climate. Best planted in partial shade with blanket of Leafmold insulation over the roots. Keep from strong winter wind by planting in lee of house or evergreen trees. Can be grown very successfully in selected locations over the East, Midwest, and West.

Ilex Aquafolium: Varieties—Female:

- Old English—green stem upright vigorous grower.
- Green Maid—green stem, large leaf, very vigorous growth.
- Brownell Special—very upright leadering habit. Attractive.
- *Rederly—slow delicate growth, much used in Oregon for Holly orchards
- *Nostalgia—The Holly that the Old Folks remember from Europe. Typical.
- *Deutches—Often-remembered heavy bearing Holly without many spines.
- **Normandie—Slow growing twiggy type. Rather hardy but does not bear too well when young. Often seen wild in France on low hills.
- **Available only in pot plants.
- *Available up to two feet in height only.

3—6"	3"	Clay pots	\$1.00 each—Whips
			\$9.00 per ten
6—12"	6"	Asphalt pots	\$2.00 each—Some branching
			\$18.00 per ten
12—15"	12"	Baskets	\$5.00 each—Upright, branched
15—18"	12"	Baskets	\$10.00 each—Upright, branched
18—24"	12"	Baskets	\$15.00 each—Bushy
2—3'	12"	Baskets	\$20.00 each—Bushy, formed
3—4'	12-16"	Basket	\$25.00 each—Bushy, well formed
4—5'	16"	Basket	\$30.00 each—Upright branched
			\$270.00 per ten
5—6'	16"	Basket	\$35.00 each—Upright branched

Ilex Aquafolium: Varieties—Male:

Escort—Bushy strain popular in Oregon for orchard pollination.

- The Earle—An Eastern strain of good growing habit.

PRICES SAME AS FEMALE

Ilex Aquafolium Mutations: Sterile.

PRICES AT BOTTOM OF PAGE.

Angustifolia—Narrow small leaf. Slow growth.

Ferox—The Hedgehog Holly, Spines on top as well as sides of leaf.

Ferox Albo Marginata—Silver-white bordered leaves—Spines on top and side.

Ferox Aurea Media Picta—Golden strained mostly center leaf—Spines on top and side.

Ilex Aquafolium X Perado (Altaclara Hybrid)

English and Azores Holly crossbred—Variety: Wilsonii—The best of the group. Large dark leaf, saw spines. Glossy.

3—6"	3"	Pots	\$2.00 each—Whips
6—12"	6"	Pots	\$5.00 each—Branching; some quite well formed. Esp. Wilsonii

12—15"	12" Basket	\$12.00 each—Bushy
15—18"	12" Basket	\$15.00 each—Bushy
18—24"	12" Basket	\$17.50 each—Bushy
2—3'	12-16" Bas.	\$25.00 each—Bushy
3—4'	16" Basket	\$37.50 each—Bushy
4—5'	16" Basket	\$50.00 each—Bushy

The CHINESE HOLLY Group

(Red berries, sharp spines, loves hot, sunny spots and grows perhaps the most rapidly of all the Hollies. Some have been known to send up a shoot three feet high in one year, when pruned back heavily. However, count on at least six inches a year. Keep on sunny side of things and away from the sweep of the very worst winter winds.)

Varieties:

Ilex Cornuta (Chinese Horned Holly)

Dark green sharply pointed leaves. Male and Female. Male required for maximum berries, although female will bear small crop of infertile berries without male.

Ilex Cornuta Burfordii (Burford Holly)

(Improved strain of above.) Less spines, from one apex spine to occasional five. Heavier bearing and more bushy habit. Broader and less upright than the parent specie, I. Cornuta.

Ilex Pernyii (Littleleaf Chinese Holly)

Froned, berries borne underneath the leaf frond, segmented, inconspicuous. Habit of growth tendeth toward a beampole.

Ilex Pernyii Vietchii (Improved strain of R. I. Pernyii)

Slightly larger darker leaf. Much more bushy habit of growth. Berries conspicuous and round, on longer stems than I. Pernyii.

Ilex Cornuta Doubleleaf Mutation

Has the appearance of a normal leaf of I. Cornuta placed end to end with another leaf of the same. The breeding has resulted in darker foliage. Does well in the shade.

3—6"	3" Pots	\$1.00 each	\$9.00 per ten—Whips
6—12"	6" Pots	\$2.00 each	\$18.00 per ten—Branched
12—18"	12" Bas.	\$5.00 each	Upright branched
15—24"	12" Bas.	\$10.00 each	Very bushy

HANDLING INSTRUCTIONS:

3" Pots. Clay flower pots, remove from pot, plant in Leafmold.

6" Pots. Asphalt paper pots, remove and plant in Leafmold.

Nature Packed wire basket, paper lined, full of Oak Leafmold and Plantfood. Plant basket and all.

SHIPPING

BY PARCEL POST—3-6" Size Only:

If ONE or TWO Hollies are ordered, add 75 cents per tree to cover cost of postage, handling, and packing.

If THREE or more Hollies are ordered, add 65 cents per tree to cover cost of postage, handling, and packing.

25 or more Hollies of this size shipped without charge for handling and packing, but YOU PAY POSTAGE or EXPRESS.

BY EXPRESS—6-12" Size Only:

If one or Two Hollies are ordered, add \$1.00 per tree to cover cost of packaging and handling. You pay Express.

If Three or more Hollies are ordered, add 75 cents per tree to cover cost of packaging and handling. You pay Express.

If 25 or more Hollies are ordered of this size, we pay the packing and handling costs. You pay the Express.

For those customers who live too far away to visit the Holly Farm and take their Hollies home with them, we offer a larger size shipped from Ohio outlet, crated, basketed, top quality. They are 30-36" very bushy specimens, Express PREPAID anywhere in the United States—\$27.50 each, female.

Males to accompany, 6-12" high—\$2.50 each.

These are handpicked specimens and are designed for people who want the very best obtainable. Our choice of bushy bright red berried varieties. All are growing in the Nature Packed wire basket full of Oak Leafmold. You plant basket and all. Hollies do not know that they were moved. Shipped early summer only, crated.

ALL OTHER ITEMS MUST BE CALLED FOR AT THE NURSERY OR DELIVERED BY OUR TRUCKS IN THE CASE OF LARGE SPECIMENS.

DELIVERY and PLANTING CHARGES

We specialize in the moving and planting of very large Hollies.

Trucking:

Small Hollies and Oak Leafmold, small truck.
\$.10 per mile round trip.

(plus driver's wages @ \$1.50 to \$2.50 per hr. dependent on work to be done)

Large Hollies, large winch trucks.
\$.20 per mile round trip.

(One truck carries up to three trees weighing up to two tons each.)

Labor:

For light deliveries where no planting is required—\$1.50 per hour portal to portal, for the driver, plus standard overtime on long trips.

For light deliveries where planting is required—\$2.50 per hour, portal to portal plus overtime on long trips plus cost of trucking (see above).

For Heavy Deliveries of big trees.

Foreman and boss \$2.50 per hour, portal to portal, plus overtime on long trips.

Handlers (1-3 required, depending on size of job) @ \$1.50 per hour portal to portal, plus overtime on long trips.

Most plantings of large Hollies are costly if only one tree is ordered, in that the trucking and traveling labor costs are identical for one tree or for three or four trees of moderately large size.

Therefore, it is most practical to either order in combination with a neighbor, or to order more than one large specimen. Costs can also be reduced by having the holes dug when our men come.
